

Importing Results into Hy-Tek Team Manager.

1. Download the results file *Meet Results-British Gas Surrey Age Group Champs 2014-01Mar2014-001.zip* (the number at the end of the file name will increase each time a new file is created) from the Surrey website. Save it to your desktop or a directory of your choice.
2. Select **Import** from the **File** menu and follow the instructions selecting the file that you downloaded when prompted. Ensure the flags are checked as below; in particular **do not** check the **Add New Teams/Athletes** box. The file on the website will always include all the results to date. It is therefore important that you **do** check the **Overlay duplicate results** box so that you always have the latest results.

The screenshot shows the 'Import Results' dialog box with the following details:
