Notes:

The table shows the difference between the expected number of Field of Play volunteer sessions that the club should staff based on the number of swimmers and the actual provided in 2026. The list is sorted best to worst. Any club in red provided no FoP volunteers at all during the Championships. As a guide, Clubs should divide the number of swimmers by 6.5. The result is the number of sessions at which they are expected to provide at least one FoP volunteer.
